

International Commission Agents Wanted

We are the UK's largest stockholder of steel tubes and we are looking for market based companies or individuals that are active in the following market sectors that can assist us in developing our sales of steel tubes & pipes.

- Civil Engineering Contractors
- EPC Contractors
- Tunnelling/Mining Contractors
- Oil & Gas Companies
- Structural Steel Fabricators
- Marine Contractors
- Tube Distributors.

Our pipes are used for various applications including;

- Piling for ports & harbours
- Infrastructure and civil engineering applications
- Gas, oil & water pipe
- Micro tunnelling / pipe jacking
- Pipes for propping
- Large Structures (bridges, airports, stadia etc)

It is likely that you are already selling complimentary products into these sectors and would add our product range to your existing offering.

We are flexible on the commission levels and happy to discuss this further.

Expressions of interest are invited, contact
